DUNCAN'S COMMENTS:

Albany-Schenectady has shown slow to moderate growth over the last thirty years. Radio revenues have grown fairly well but this growth has been offset by the addition of nearly ten new FM's since the early 90's. Most of these "new" FM stations are move-ins with low power and have not been able to achieve as much as a million dollars in revenue.

The station which I admire is WGNA-F. It has led the market in revenue for the last 12 years. Also, despite the increased competition, WGNA has maintained a double digit 12+ share since 1991.
