DUNCAN'S COMMENTS:

Harrisburg is a below average small to medium radio market. Revenues have grown well but population has not. The number of local viable stations has been steady. However, a lot of listening is lost to adjacent markets and to unlisted stations.

WNNK has been a great radio station since the early 1980's. It is very interesting to me that in a low-ethnic market a good CHR can, and often does, have a long and very successful life.
