DUNCAN'S COMMENTS:

Knoxville is a below average medium-sized radio market. Revenues have grown at an average rate but are concentrated in the top five or six stations, so there is not much left for anyone else. The number of viable stations has still increased dramatically since 1990.

WIVK is one of the greatest stations in the country...no matter what the format. It generally commands about a third of the markets' revenues. I believe WIVK had the highest 12+ share of any top 100 market station in the early 90's.
