### DUNCAN'S COMMENTS:

Nashville is an above average medium (on the cusp of large) radio market. It is the best radio market west of Atlanta in the South. It continues to grow nicely and should be a \$100 million market by the end of the decade. The number of move-ins has grown yet the market seems to handle that.

Nashville has flattened over the years and there is no longer any station which enjoys a commanding audience share...or revenue share for that matter. While I highly admire WSIX, WJXA and others, the station I most admire is WSM-AM. I admire what the station has done for the Country format over the decades.
