DUNCAN'S COMMENTS:

Richmond is a slightly above average medium market. Radio revenues have increased, particularly since 1999. Unlisted station listening appears to be increasing significantly as well. Overall radio listening has declined 22% in the last decade.

Clear Channel has done a great job with WTVR. This station was old and sleepy until CCU got its hands on it in the mid 1990's. Since then it has become the highest billing station in Richmond and often leads in 12+ audience share. WTVR is one of the few Soft AC's to lead its market during the last decade. One other station I admire in Richmond is WKWK.
