DUNCAN'S COMMENTS:

Tulsa is an average to slightly below average medium size radio market. All of the indicators are near the average for a market of this size except for the most important one: radio revenue growth which has been a little below average.

Since the early 1980's when it became a Country station, KWEN has been the most successful station in Tulsa. KRMG also deserves mention. In fact KRMG's 12+ audience share in 2003 equaled its share in 1984. Not many major AM stations can make that statement.
